CHILDREN'S FREE TRIBUTE VIDEO COLLECTION

Losing a young child is devastating.

In support of those families who experience this heartbreak, Memories By Design will produce a Loving Memories Tribute Video, that honors their loved one, free-of-charge. We have created the Children's Collection, a specially designed series of scenery themes focused on young children. These are designed to serve children, 12 years of age and under, 6-minute Tribute Video Package (up to 25 photos), Photo Restoration, Custom Moves and Encryption. Contact us for details.

NEW AND IMPROVED CONTEMPORARY STYLE TRIBUTE VIDEOS

Designed with additional production elements including a new open, portrait style and subtle cinematic overlays, the Contemporary Style offers a fresh perspective while still showcasing the scenery and all-important family photos. New Options include inclusion of the sponsor funeral service name at the beginning, a modern font choice and inclusion of the Obituary near the end. **CLICK TO WATCH**

VETERAN'S COLLECTION DISCOUNT PROGRAM

In honor of our Veteran's, we are now offering a 10% discount for any order that use one of our Veteran's Collection themes. As a reminder to families and customers alike, we have created the Veterans Collection, a compilation of our military service themes, music and covers packaged together. This includes Army, Navy, Air Force and Marines, WWII, Korean War, Vietnam War, and Modern Military.

RECAP OF OTHER RECENT IMPROVEMENTS

DVD BURNING: ISO VS. WMV

Many of you receive two separate types of video files to burn, ISO and WMV. While there was a time when WMV files were the way to go, with recent changes in technology, we recommend using ISO files for your DVD burning. While the file size is larger, using an ISO file is a lot easier, faster and has automatic looping. Contact our tech support for a five-minute conversation to set your computer for the simple three-step process Open, Double-click and Burn. You can also burn multiple copies in one sequence!

LOVING MEMORIES PHOTO ALBUM

The perfect complement to your families Tribute Videos, this classic style coffee table keepsake holds up to 100 of the Photo Restored family photos, arranged in the same order as the Tribute Video. With room to add captions, dates or other comments, you can preserve your family history through this hardbound memento.

USB DRIVE DELIVERY OPTION

We provide you with the custom DVD/USB Drive cases and branded USB Drives at a wholesale price. This program allows you to protect the branded USB Drives in sturdy storage cases while allowing for attractive packaging that is provided to the families. The case and drive will have your name on it. Perfect to use with a digital player!
