

WITH THE HUMAN TOUCH

Photo Restoration

We believe preserving a loved one's memory starts with the preservation of the family's photographs. Damaged or faded photos are repaired, restored, and enhanced by our talented editors to ensure treasured photos are presented with the highest possible quality.

MEMORIES BY DESIGN

Preserving Memories.
Connecting Generations.

Features

Each image is evaluated & repaired individually.

Here are some common enhancements

we can make to your photographs:

- Remove Dust
- Correct aged or faded colors
- Repair scratches & damaged areas
- Brighten underexposed areas, and vice versa
- Improve contrast
- Eliminate light flares (or camera malfunctions)
- Reduce Noise
- Sharpen blurry images
- Straighten crooked photos
- Correct Red Eye
- Color correct skin tone

On-Demand Restoration

We also offer custom editing by special request!

This service includes special attention given to the DVD/USB Cover photo, creating a professional looking portrait image, a headstone engraving or for an obituary, send us your digital photo via email.

Once completed, the restored version is returned to you! This service starts at \$15.00* for standard restoration. If extensive restoration is required we will contact you with specific quote.

Our skilled editors are available for custom photo editing projects, so if you have an idea – just give us a call.
